

RAPIT DROP-IN DECK HANGER

The Rapit Drop-In Deck Hanger is designed for installation in concrete-filled metal deck assemblies. Deck Hangers are installed before pouring the concrete, to reduce installation costs and increase strength values. Once installed, the insert hangs below the deck surface for easy installation of threaded rod or Kwik-Studs.

Features:

- 3/8" diameter UNC female threads
- Fast & easy to install
- Low profile for less trip hazard on jobsite
- Can be used through or between ribs on metal decking
- Internal threads eliminate the need for couplings
- Built-in screw holes for multi-position solid deck mounting
- 10x3/4 High Head Pro Point screws included for convenient installation
- Yellow powder coating for durability, safety & easy identification
- Designed to be used with BIM location systems

3/8" Threaded Rod

3/8" Kwik-Stud

For use with:

- 3/8" Threaded Rod
- 3/8" Kwik-Studs
- Can be used to hang:
 - HVAC ductwork
 - Pipe, strut, conduit
 - Lighting & signage
 - Sprinkler systems

The applications are endless!
